

le Valli

The original **handcrafted** collection "le Valli" has been totally conceived in Piedmont.

This is "oil effect" pre-finished wooden floor, with a **4 mm thick solid wood top layer** which can be laid both glued or floating.

Each plank is carefully handcrafted by expert artisans and the result is a peculiar wooden floor with a unique character.

The different surface finishing (brushing, planing and saw cut effect) remind of old wooden floors marked by the process of time.

Different handcrafted "tailor cut" finishing, **multi-width planks and irregular edges** allow the clients to customize their floor in a very exclusive way.
